

How to use your...

# Prepaid Virtual Visa card

Congratulations on receiving a Virtual Visa Gift card. Unlock its potential with these 3 simple steps:

**Note:** this card will expire – make sure you use it before the date shown on the card!

1

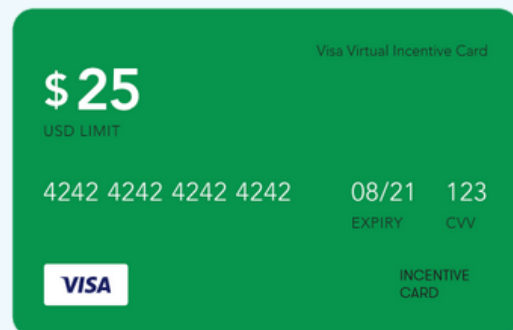

## Access your card information

In your offer email or giftbit link, click **Claim Card**. Now select **Enter Address Info** and enter your name, phone number, and address. This will be the same billing information you use when making a purchase with your prepaid card.

Review the information and press **confirm** if it's correct. Your card will be shown on the next page.

Your card is activated instantly when the card details are revealed.

### Copy the card details or take a screenshot

Keep the card details secure. You'll need the card number, expiration date, and CVV each time you make a purchase.

## 2 Shop online!

Your prepaid Visa virtual card is the most flexible reward available. You can spend your prepaid card at any US-based online retailer that accepts Visa\* including Amazon.com. It is as easy as using any other credit card!

### Follow the standard online shopping process:

- Add items to your cart
- Make sure the purchase total is within your card balance
- When prompted for payment, enter your card number CVV, and expiry date in the credit card payment fields
- Complete your purchase!

## 3 Check your balance and purchase history

To see your balance and recent purchase transactions, visit [giftbit.com/balance](https://giftbit.com/balance) and enter the card number, expiration date and CVV.

**Don't see your charge?** Pre-Authorizations and pending transactions may not appear right away. Some charges take 2-5 business days to complete.

### We're here to help!
